Submission of Matters to a Vote of Security Holders.

Yueda Digital Holding (the “Company”) held its extraordinary general meeting of shareholders (the “Extraordinary General Meeting”) on June 12, 2026 at 10:00 p.m. Eastern Standard Time at Room 7C, Floor 7, No. 1 Danling Street, Haidian District, Beijing 100080, People’s Republic of China.

Holders of 2,516,363 Class A ordinary shares of the Company were present online or by proxy at the meeting, representing approximately 45.40% of the total 5,542,262 outstanding Class A ordinary shares as of the record date of May 15, 2026 and therefore constituting a quorum. The final voting results for each matter submitted to a vote of shareholders at the Extraordinary General Meeting are as follows:

1. Share Capital Reduction and Reorganization

The shareholders approved as special resolution, subject to all requirements prescribed by sections 14, 14A and 14B of the Companies Act relating to share capital reductions being complied with (together, the “Share Capital Reduction and Reorganization”), that: (i) the par value of each issued Class A ordinary share of a nominal or par value of US\$4.00 and each issued Class B ordinary share of a nominal or par value of US\$4.00 in the share capital of the Company be reduced to US\$0.0001 by cancelling US\$3.9999 of the paid-up capital on each issued Class A ordinary share of a nominal or par value of US\$4.00 and each issued Class B ordinary share of a nominal or par value of US\$4.00 (the “Share Capital Reduction”); (ii) following the Share Capital Reduction, the amount deemed to be paid up on each issued share of the Company shall be US\$0.0001; (iii) the credit arising from the Share Capital Reduction be transferred to a distributable reserve account of the Company which may be utilized by the Company as the Board may deem fit and as permitted under the Companies Act, the third amended and restated memorandum and articles of association of the Company currently in effect (the “Existing M&A”) and all relevant applicable laws, including, without limitation, eliminating or setting off any accumulated losses of the Company (if any) from time to time; (iv) immediately following the Share Capital Reduction, (a) each authorized but unissued Class A ordinary share of a nominal or par value of US\$4.00 be subdivided into 40,000 Class A ordinary shares of a nominal or par value of US\$0.0001 each, and (b) each authorized but unissued Class B ordinary share of a nominal or par value of US\$4.00 be subdivided into 40,000 Class B ordinary shares of a nominal or par value of US\$0.0001 each (the “Share Sub-Division”); (v) immediately following the Share Sub-Division, the authorized share capital of the Company be altered by the cancellation of such number of excess authorized but unissued Class A ordinary shares of a nominal or par value of US\$0.0001 each and authorized but unissued Class B ordinary shares of a nominal or par value of US\$0.0001 each as will result in the Company having authorized share capital of US\$1,000 divided into 9,000,000 Class A ordinary shares of a nominal or par value of US\$0.0001 each and 1,000,000 Class B ordinary shares of a nominal or par value of US\$0.0001 each (the “Cancellation”); and (vi) immediately following the Share Capital Reduction, the Share Sub-Division and the Cancellation, the authorized share capital of the Company shall be changed from US\$40,000,000 divided into 9,000,000 Class A ordinary shares of a nominal or par value of US\$4.00 each and 1,000,000 Class B ordinary shares of a nominal or par value of US\$4.00 each, to US\$1,000 divided into 9,000,000 Class A ordinary shares of a nominal or par value of US\$0.0001 each and 1,000,000 Class B ordinary shares of a nominal or par value of US\$0.0001 each.

Yueda Digital Holding Announces Solon Initiative — Bets on the Enterprise Governance in AI-Agent Finance

Targets the enterprise governance layer between autonomous AI agents and the institutional stablecoin payment infrastructure.

NEW YORK — June 10, 2026 /PRNewswire/ — Yueda Digital Holding ("YDKG" or the "Company") (NASDAQ: YDKG) today announced **Solon** (<https://solon-site.com>), the Company's strategic initiative to build a non-custodial control plane for autonomous AI agents that originate on-chain payments. Solon is designed to occupy what the Company believes is the most underdeveloped — and most defensible — layer in the emerging architecture of agent-driven finance: the policy, approval, and audit infrastructure between AI-agent reasoning and the stablecoin payment rails now reaching enterprise scale.

The Strategic Convergence

Two secular shifts are arriving at institutional readiness simultaneously in 2026: autonomous AI agents capable of executing multi-step economic decisions, and stablecoin payment rails capable of settling enterprise transactions at internet speed. Their intersection — agent-originated on-chain payments — is a new category that legacy treasury and compliance systems were not designed to govern. While the protocol layer (including emerging standards such as the x402 payment protocol) and the payment-rail layer are being aggressively built by others including Coinbase, Stripe, and Fireblocks, the Company believes the enterprise governance layer — the policy engine, approval workflow, and audit archive that finance, risk, and compliance teams require before authorising agents to move corporate funds — remains structurally underdeveloped. Solon is engineered to fill that gap.

Architectural Moats

Solon is built on four principles:

- **Non-custodial by design.** Solon never holds complete signing authority; it provides a deciding signature in a threshold-signature scheme.
- **Policy as code, archived as evidence.** Authorisation policies are versioned data, archived verbatim and quoted in audit evidence.
- **Fail-closed.** Any uncertainty — unavailability, ambiguous policy, timeout — results in a refusal to authorise, never default-allow.
- **Open at the edges.** Solon interoperates with existing wallets, payment protocols, and treasury systems rather than replacing them.

Strategic Significance

The Company believes the market for enterprise AI-agent governance is structurally a trust market rather than a feature market — one in which leadership is determined by the depth of architectural commitments to non-custody, auditability, and fail-closed defaults. Such commitments are difficult to retrofit, which the Company believes makes them durable moats. The Company expects the 2026–2027 window to be the period during which enterprise governance standards for agent-originated payments are effectively set.

Executive Comment

"Solon inverts the default of most agent infrastructure: an agent without an explicit, current policy authorisation cannot move money," said Qirui Dou, Chief Executive Officer of Yueda Digital Holding. "We believe this architectural inversion — making safety the default and capability the exception — is the foundation on which enterprise adoption will be built."

About Yueda Digital Holding (formerly known as AirNet Technology Inc.)

YDKG is a Web3 and digital-economy company with a focus on the long-term accumulation of mainstream cryptocurrencies, whether acquired through treasury allocations, strategic investments, or the proceeds of capital transactions. Its principal business activities include: (i) active treasury management of mainstream digital assets; (ii) exploration of compliant, risk-managed yield opportunities, such as staking, on-chain liquidity provision, and other conservative market activities (where permitted); (iii) selective investments and partnerships in Web3 infrastructure and applications; and (iv) advisory services for enterprises entering the digital-asset economy. YDKG aims to compound long-term value while supporting the growth of open blockchain networks.

Safe Harbor Statement

This press release contains forward-looking statements as defined by the Private Securities Litigation Reform Act of 1995. Forward-looking statements include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements that are other than statements of historical facts. When the Company uses words such as "may," "will," "intend," "should," "believe," "expect," "anticipate," "project," "estimate" or similar expressions that do not relate solely to historical matters, it is making forward-looking statements. Forward-looking statements are not guarantee of future performance and involve risks and uncertainties that may cause the actual results to differ materially from the Company's expectations discussed in the forward-looking statements. These statements are subject to uncertainties and risks including, but not limited to, the following: the Company's goals and strategies; the Company's future business development; changes in technology; economic conditions; reputation and brand; the impact of competition and pricing; government regulations; changes in applicable laws or regulations; as well as those risks and uncertainties discussed from time to time in other reports and other public filings with the Securities and Exchange Commission by the Company. For these reasons, among others, investors are cautioned not to place undue reliance upon any forward-looking statements in this press release. Additional factors are discussed in the Company's filings with the SEC, which are available for review at www.sec.gov. The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof unless required by applicable laws, regulations or rules.
